WILL CONTINUEChanges on the Coast Do Not Affect

CASHIER MILLER EXPLAINS

SAN FRANCISCO INSTITUTION IS
ALONE IN COMBINATION.

Henry L. Miller, cashier of Wells, Fargo & Co. bank in Salt Lake, returned from San Francisco this week, after being in consultation with the other Wells-Fargo officials in relation to the changes to be made on the coast. He announced that the changes in San Francisco will not affect in any way the Salt Lake bank.

The Wells, Fargo & Co. bank and the Nevada National bank have consolidated in San Francisco, under the name of Wells, Fargo & Nevada National. The capital of the combined bank is \$10,000,000; the surplus is \$3,000,000; the deposits amount to \$17,000,000.

King Goes to Other Banks.

"Home S. King leaves the Wells-Fargo people to become president of the California National bank. All the other officers and employees remain with the consolidated bank. I. W. Helman succeeds Homer S. King as president, and F. L. Lyman becomes the cashier.

Mr. Lyman will also be the president of Wells, Fargo & Co. which will continue to run its banks in New York, Portland, San Francisco, Salt Lake, and San Francisco. That will now be a national bank and mutual banks can have no branches. The big bank on the coast will be the consolidated bank. The Wells, Fargo & Co. bank and we will have the moral support and prestige of that institution without being subordinate to it in any way.

The consolidation of the Wells, Fargo & Co. bank and the Nevada National bank makes that the largest banking institution on the Pacific coast. Next comes the California National, of which Homer S. King has been president. The Wells, Fargo & Nevada National has been put in position to do a tremendous railroad business on the coast."

Mr. Miller laughed at the report that the Salt Lake bank would be absorbed by some other. He said Wells, Fargo & Co. would be retaining right along for many years in the future.

WILL BUILD IN SPRING.

Brigham Young Trust Company Plans
Improvement.

The Brigham Young Trust company has decided to erect a two-story or three-story brick and stone building on the corner of First and State streets. The corner is directly opposite the Salt Lake theatre and at present occupied by the Elk saloon. The building will have frontage of 100 feet and six inches on First street and 100 feet and four inches on State street. It will cost in the neighborhood of \$150,000. C. M. Newhouse is the architect. The company is also figuring on buildings on other corners owned by it in different parts of the city, but nothing definite has been settled in the work at present. It is expected to start on the First State street building early in the spring.

AMERICAN FLEET ON HAND

Fifteen Warships Will Maintain Neu-
trality in Philippine
Waters.

Paris, Feb. 3.—An official dispatch from Manila says that an American squadron composed of fifteen warships has sailed today from the island of Luzon for the southern waters of the archipelago, with the object of maintaining neutrality in American waters. The ships are both American and Japanese.

It is the understanding that the movement of the American squadron is a precautionary stroke taken in connection with the movements of the Russian Second Pacific squadron and of Japanese warships. A recent dispatch said that Japan's fleet had been seen in southern Philippine waters and it is therefore expected that the precautionary measures apply equally against the Russians or Japanese.

It is added here that the Dutch islands of Sumatra and Java and the unexplored waters of Southern Mindanao offer a possible rendezvous for belligerent warships. The Dutch government has already sent two warships to protect the Dutch waters and the movement of the American warships assumes the same character. It is not expected that Vice Admiral Rogstven's squadron will proceed to the far east until joined by the division of the squadron which left Jibuti today.

on St. Louis Fair Commission
Completes Its Labors.

The joint committee of the house and senate appointed to examine and report upon the accounts of the Louisiana Purchase exposition at St. Louis, has completed its labors, and it is expected it will make its report to the legislature Monday.

The accounts of Director General S. T. Whitaker were found to be straight.

The legislature appropriated \$25,000 to defray the expenses of the commission and it spent nearly \$20,000. The object sought by the legislative committee was to ascertain the responsibility for the over-expenditure of about \$10,000.

KAISER MAY TAKE OFFENSE

Indiscreet Speech of Arthur Hamilton
Lee, Civil Lord of the Brit-
ish Admiralty.

London, Feb. 3.—A speech delivered in the House of Commons by Arthur Hamilton Lee, civil lord of the admiralty, has created excitement. In dealing with the recent redistribution of Great Britain's naval forces, Mr. Lee declared that Great Britain had not so much to keep her eyes on France and the Mediterranean, but had to look with anxiety, though with fear toward the North sea, and the fleet had been so distributed as to enable them to deal with any danger in that direction should it unfortunately occur.

It was should unhappily be declared, he continued, under existing conditions, the British navy would get its blow in first, and then the other side would come in. In the papers that war had been declared.

He maintained that "by recent naval reforms Great Britain's strength as a nation has been increased and it is now in a position to deal with any danger in that direction should it unfortunately occur."

The speech, which was delivered at a railway dinner in no way warranted the character, is commented on in some of the London papers as being an indiscreet and likely to be greatly resented by Germany, at which it evidently pleased.
